ABOUT ME

Front-End developer with experience in creating SPAs using React, Next.js, and TypeScript. I'm always looking forward to improving my knowledge. In my free time, I also take on freelance projects, delivering complete solutions with a focus on web development, SEO optimization, and design. Outside of work, I enjoy improving my English, going to the gym, reading educational books, or solving katas on Codewars. I'm open to your suggestions!

WORK HISTORY

Front-End Developer
IT Spark, Rzeszów | 02.2024 - now

Responsibilities:
- End-to-end e-commerce project development: Full involvement in creating e-commerce projects from the initial concept stage to the final implementation.
